

A Christian Neighborhood Watch Ministry

Dear Sir,

July 27<sup>th</sup> 2007

After reading the July 27<sup>th</sup> article called "Homicide drop shows unpredictability of stats" – I believe that I needed to give a "shout-out" to our local Churches and Ministries who are participating in OPERATION : PEACETOWN - praying for the Peace of Porterville.

As well, I want to give a "shout-out" to all those who were caught up in the crazy life of gangs and have "Jumped out with Jesus."

Lately, we have been seeing in the news, reports suggesting that "Intervention" is a better way to go than suppression and incarceration. But most of these reports are still struggling with which intervention model is the best.

As far as I convinced, the best intervention model around is when a city gets on it's knees and prays for our lost and lonely family members caught up and silenced by gangs.

It humbles me to know that GOD will intervene ... if we just ask HIM in Prayer.

And my final "shout-out" goes to our local police department and to let them know that many of the Churches and Ministries - participating in **OPERATION : PEACETOWN** have been praying for you as well ... for your safety, for your family and for your salvation. We're all sinners needing GOD's Grace.

See you in the Streets ...

Brother LUCKY

Gang Watchers
